Free Elective	1			Total hrs required = 128

Timeframe:

1. The plan above does not take into account developmental coursework that may be required of the student. Therefore, a student may need to take additional courses that could extend the time needed to graduate.
2. In order to complete the degree in four years, students may want to consider using summer terms to complete credit hours above 15 or 16 hours in order to avoid taking a particularly heavy course load any given term.

Students are advised to consult with their advisor to discuss these requirements.

Free Elective :

Students are advised to consult with their advisor in determining an appropriate course.
