### **Timeframe:**

1. The plan above does not take into account developmental coursework that may be required of the student. Therefore, a student may need to take additional courses that could extend the time needed to graduate.
2. In order to complete the degree in four years, students may want to consider using summer terms to complete credit hours above 15 or 16 hours in order to avoid taking a particularly heavy courseload any given term.

*Students are advised to consult with their advisor to discuss these requirements.*

### **Free Electives :**

Students are advised to consult with their advisor in determining appropriate courses to select keeping in mind that they must also successfully complete one of the following in addition to their major: 1) a university-authorized minor, 2) an advisor approved Area of Concentration, or 3) a second major.
